PROJECTS

Amazon Clone — Developed a static e-commerce website interface using HTML and CSS, replicating Amazon's homepage layout, navigation bar, product grid, and footer to practice responsive web design.

Spotify Clone — Built a responsive music player interface using HTML, CSS, and JavaScript, featuring a playlist section, playback controls, and interactive UI elements for a real-world streaming app experience.

Todo App — Built using HTML, CSS, TailwindCSS, and JavaScript, by using the local storage concept so that even if the site refreshes data is not lost. <https://shefukri.github.io/Todo-App/>

Simon Says Game — Developed using HTML, CSS and JavaScript; integrated the Web Audio API for generating sounds and enhancing interactivity. <https://shefukri.github.io/Simon-says-/>
